Assess

Our approach to end point assessments is to support employers to understand the assessments involved and how they can support their staff to be successful.

Marshall Assessment's approach to billing supports your cashflow by invoicing on the day of end-point assessment. You have 30 days to pay and can use your incentive payment allowing profile payments to fully support the development of apprentices.

Assure

Marshall have highly qualified assessors with strong occupational competence that follow stringent Internal Quality Assurance (IQA) processes and procedures. This ensures your students / employee's completing End Point Assessments have a high quality standardised experience each time.

Achieve

Following IQA, we will notify Training Providers of the result within 15 working days. Our ACE 360 platform provides a secure link between training providers and the apprenticeship service for hassle free information sharing and reporting of results.
